Work Experience

Utah UX
Sr. Freelance Product & Web Design
Sep 2019–Present

- Designing digital product experiences for clients all around the country—spanning the diverse industries of genealogy, cremation, healthcare, nonprofits, religious nonprofits, and more.

Lendio.com
Sr. UX Design
Oct 2020–Oct 2021

- Led an initiative that included developers, designers, and marketing stakeholders to create the foundations of a design system for Lendio.com internal and external applications.
- Conducted discovery-phase research for a new product line within the Lendio family of products.

Ancestry.com
UX Design
July 2018–Oct 2020

- Designed a series of onboarding experiences for the genealogy product line, leading to an estimated $15 million in additional projected revenue over the next 4 years. (2020-2024)
- Collaborated with product managers, design leadership, developers, and fellow designers to create products that empower individuals to connect to a greater sense of who they are.

- Photoshop
- Illustrator
- After Effects

Front End Tech & Tools

- HTML
- CSS
- SASS
- Webflow

Awards

CROCKER
INNOVATION FELLOWSHIP

2015 Crocker Fellow
A competitive fellowship program though the BYU business school which required application and admission, where I learned to employ ideas from design thinking, entrepreneurship, and agile software development to create novel product solutions.

Work Experience—Continued

Brigham Young University Library
UX Design
August 2015–July 2018

- Worked with stakeholders, users, and developers to identify and address librarian and patron pains within the constraints of business goals through a human-centered design process.
- Designed, developed and tested software product solutions to those pains iteratively with users and stakeholders.

Trace.com
UX Design
May 2015–July 2015

- Created user personas, designed for those personas and assisted in implementing designs.
- Determined user flows, onboarding processes and UI design for both user groups.

Riser Design Agency
Design
May 2014–December 2014

- Designed and illustrated several drawings for Google.
- Created several landing pages for ABC.
- Assisted in the branding process of multiple companies.

Brigham Young University Museum of Art
iOS UI Design
July 2013–January 2014

- Designed the interface for the Sacred Gifts iPad app as a companion to the Sacred Gifts Exhibition —depicting events from the life of Christ.
- Collaborated with print, exhibition, and web designers for overall design consistency.

Volunteer Work

THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

Missionary
Kennewick Washington
2010–2012

I worked for 15 hours/day teaching, serving, and building connections among communities in Washington state. One of the most important lessons I learned through this experience was that the most worthwhile pursuits in life require consistent effort and hard work over long periods of time, especially learning.

Education

Kent State University
M.S., User Experience Design
Completed • December 2022

Brigham Young University
B.S., Technology & Engineering Education: Non-licensure
Completed • December 2015
